Drum Transfer Systems

Bringing an advanced level of containment to your work environment

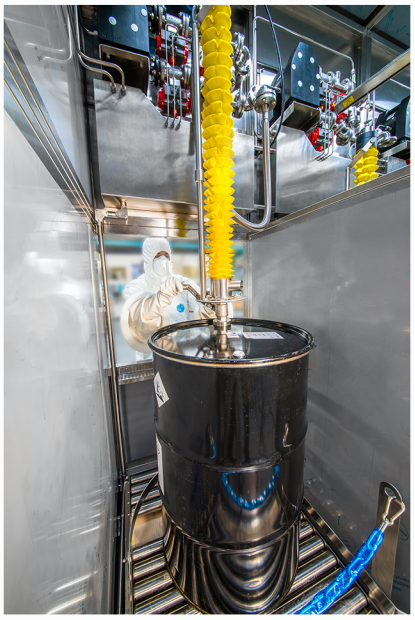

Drum Transfer Systems for Hazardous Liquids is a key stage of pharmaceutical manufacturing processes. Howorth WorkSAFE Drum / Solvent Booths are designed utilising our specialist experience including stringent safety measures to ensure protection of personnel and the environment.

- Designed to safely handle hazardous Solvents <1ppm
  Negative pressure cascades
- Open Sash or Gloveport access
- Spillage Sump
- Integration of LiquiSAFE Liquid Transfer Device
- Full ergonomic assessment
- Designed to the specified hazardous area classification
- Equipment Earthing Points
  Compliance with all appropriate design standards and guidelines

Integrated LiquiSAFE transfer Device:

- Operator access for raising and lowering dip tube via open sash
- Dedicated extraction around open drum
- Full ergonomic Mock Up available

Process equipment integrated internally:

- Site limitations for process pipework, valves & pumps

Process equipment integrated externally:

- Provides a dedicated technical area for process pipework, valves & pumps
